

# DOSATRON®

WATER POWERED DOSING TECHNOLOGY

## EZ MOUNTING SYSTEM

**Dosatron makes it easier to mount your panel systems.**

The Dosatron EZ Mounting System consists of two easy-to-install clips, allowing a panel system to be mounted by only one person. It also provides extra support while you are securing all four corners of the panel to the wall.

- Securely attach the two EZ Mount clips to the wall where they would support the bottom of your Dosatron panel system.
- Set the panel into the EZ Mount clips, supporting the panel system while you are securing all four corners of the panel to the wall.
- Leave the EZ Mount clips attached for extra support.

Be sure to request a set with your Dosatron panel order.

**NOTE:** These clips do not replace securing all four corners of the panel to the wall.
