DOSATRON INTERNATIONAL INTRODUCES NEW LI'L BUD-D DOSACART --New Cart Offers Smaller Capacity for Spot and Specialty Treatments--

CLEARWATER, Fla, June 2, 2010 – [Dosatron International, Inc.](http://www.dosatronusa.com) today continued the expansion of their line of portable chemical injection solutions with the introduction of the [Li'l Bud-D 5-gallon DosaCart](#). The Li'l Bud-D joins the [full-size 15-gallon DosaCart](#) as an easy way to [inject fertilizer](#), [sanitizers](#) such as chlorine and [PAA](#), and other chemicals in areas that are not easily accessible via the facility's plumbing system.

"Our customers love the full-size DosaCart for the ease of portability and quality it offers, but they've been asking us for an option for smaller applications that don't require as much stock solution," said Dosatron Vice President of Sales and Marketing Pam Temko. "The Li'l Bud-D was developed with those users in mind. Its smaller size makes the Li'l Bud-D perfect for spot treatments and other applications that require smaller amounts of chemical."

The Li'l Bud-D can be used in any industry where there is a need for portable chemical injection. It features a 5-gallon-capacity bucket and lid, high-quality polyethylene construction for superior durability, and 10" no-flat tires. It measures 44.5" high, 19" wide wheel-to-wheel, and 22" deep, making it well-suited for navigation in garden center aisles, animal sick-pens, and other small spaces.

Dosatron has also developed a Quick Hook-Up Kit option specifically for the Li'l Bud-D, which, when purchased alongside the Li'l Bud-D and the Dosatron injector, helps to protect the cart and injector from damage and tip-over. The Li'l Bud-D Quick Hook-Up Kit includes a filter, stainless steel clamps, and a 5/8" hose with 3/4" inlet and outlet adaptors.

The Li'l Bud-D can be used with any of Dosatron's 3/4" injectors, including all 7, 11, and 14 GPM models. The Li'l Bud-D is available wherever Dosatron products are sold. More information is available via Dosatron International Customer Service at 800-523-8499, or via the Dosatron International website, www.dosatronusa.com.
