DOSATRON INTERNATIONAL ANNOUNCES PARTNERSHIP WITH EASY FEED SYSTEMS

--Companies to Partner On Solution for Hydroponics, Boutique Garden Markets--

CLEARWATER, Fla, September 9, 2009 – [Dosatron International, Inc.](http://www.dosatronusa.com) today announced that it has partnered with the Oakland, CA-based firm Dosa Distributions LLC, the engineers of Easy Feed Systems to create modular, ready-to-install panel systems for the hydroponics and boutique garden markets.

“Dosatron has been seeking to expand our service of the hydroponics market for some time,” said Dosatron’s Vice President of Sales and Marketing Pam Temko. “When Easy Feed Systems approached us with their idea, we knew this was a great way to provide a simple, ready-made solution for hydroponics and boutique growers.”

“When we first got the idea for Easy Feed, we knew we’d need to partner with a great company, and we did our homework,” said Dosa Distributions Director of Sales Gabriel Goodhart. “When we compared Dosatron to the other companies we could have partnered with, the choice was clear. We found that Dosatron was the most consistent, reliable doser on the market, and it was exactly the thing we needed to make our system a success.”

Easy Feed’s modular panels feature Dosatron proportional chemical injectors, unions and fittings for easy installation, proper filtration equipment, and a timer and solenoids for electrical automation. Other optional accessories, such as inline mixers, R/O and low-pressure modifications, digital gauges, and additional solenoids and drip sites, are also available. The panels can be customized to accommodate multiple injectors to inject different nutrients in a single water line, utilizing one or multiple zones.

About Dosatron International

Dosatron International, Inc. is an industry leader in water-powered, proportional chemical injectors. Dosatron products are manufactured according to ISO 9001:2000 and ISO 14001:2004 standards by Dosatron International S.A.S., part of United Technologies Corporation, U.S.A.

About Dosa Distributions LLC

Dosa Distributions is one of the premier companies focusing on automating the nutrient management process for hydroponic and boutique farmers. They use only fair-trade high-end components made in the United States, France, and Israel. More information is available on Easy Feed System’s website, www.easyfeedsystems.com, or by calling Easy Feed at 888-308-8545.
