Filters

Part #:

- AKF5AP11T
- AKF5AP20T
- AKF5AP100-A
- AKF5AP11T-S

Product Specifications

Filters include a cleanable, permanent, stainless steel filter. No replacement cartridges necessary.

These Filters Feature:

Polypropylene
T-Shape
200 mesh/80 micron
Industrial grade

Maintenance:

- To clean the filter, remove the screen and rinse as much as possible. Place the parts into one gallon of water with a packet of Dosa-Klean (Part #: CLEANSER-ALL) and soak for 24 hours, then rinse. Dosa-Klean is also available in a 3 lb. pail (Part #: CLEANSER-3LB-ALL).
- If particles are still present, use a toothbrush to remove. Rinse again.
- Reinstall the screen.
