## Mixing Chamber

### Part #:

- MC34
- MC34-PP
- MC100
- MC150

### Product Specifications

Enhance chemical blending with a mixing chamber. Excellent for low flow applications.

### Mixing Chamber Applications:

Low volume requirements (bottle fill).

Minute injection rates

Nutrient Delivery Systems constant  
ON/OFF applications

Use at low flow or when filling small bottles to  
enhance thorough mixing of solution.

Description	Part #
3/4" Mixing Chamber (Basic Clear). Capacity of 1250 mL (42 oz)	MC34

Description	Part #
3/4" Mixing Chamber (Chemical Resistant Blue Poly). Capacity of 3250 mL (110 oz)	MC34-PP

Description	Part #
1" Mixing Chamber (Chemical Resistant Blue Poly). Capacity of 3250 mL (110 oz)	MC100
1 1/2" Mixing Chamber (Chemical Resistant Blue Poly). Capacity of 3250 mL (110 oz)	MC150
