ChemStick

Helps Prevent Chemical Waste

The ChemStick was designed to be used with either a barrel or tote, and easily connects to existing pick-up tubes.

Features:
- Chemical and acid resistant
- Polypropylene construction with Viton® seals
- Keeps hose primed
- Rigid pipe to overcome common problems with flexible tubing
- Stops debris from entering the chemical container with the bung adapter (barrel) or cover plate (tote)

**CHEMSTICK OPTIONS**

**Do I need a ChemStick with the Bung Adapter or a Cover Plate?**

The Bung Adapter is used with barrels when the container includes a threaded opening.

The Cover Plate is used when the opening is not threaded.

**Includes:**

- Four (4) polypropylene suction hose barbs:
  - 1/4 in (6.3 mm)
  - 3/8 in (9.5 mm)
  - 1/2 in (12.7 mm)
  - 3/4 in (19 mm)
- Foot spacer (1/2") to keep strainer off container floor
- Chemical resistant foot valve
- Chemical check valve to prevent back flow
- Hastelloy® strainer easily accessible for cleaning
- Adjustable stopper for setting depth
