The combination of Dosatron’s chemical injector, a Quick Hook-Up kit, and our 5-gallon cart make the perfect, portable system for sanitizing and PAA applications. The system is economical to operate, designed specifically for your needs, and the on-demand dispensing eliminates waste.

Dosatron injectors are water-powered so no electricity is necessary and they compensate for flow and pressure changes providing consistent, repeatable results. They are simple to use, easy to adjust allowing for flexible dosage rates, and Dosatrons are easy to maintain, saving you time and effort.

The 5 gallon DosaCart was designed for maximum stability and features:

• Polyethylene construction
• 5-gallon bucket with lid
• 10” no flat tires for maximum mobility
• Dimensions are 44.5” high, 19” wide, and 22” deep

Dosatron’s Quick Hook-Up Kit includes everything you need for quick and easy installation of the Dosatron injector onto the DosaCart.

The Dosatron PAA Portable Sanitation System is great for:

• Food Sanitation
• Water Purification
• Bio-Film Removal

PAA applications. All units include: mounting bracket, suction tube, and weighted strainer. Please review the basic installation drawing for recommended accessories. MAXIMUM TEMPERATURE: 104 °F

5-Gallon DosaCart and Quick Hook-Up Kit

The 5-Gallon DosaCart includes a 5-gallon bucket with lid. When ordering ask for:

- **Part #HS15-5**

The Quick Hook-Up Kit includes everything you need for quick and easy installation of your Dosatron injector to the DosaCart. It is designed to help protect the injector and cart from tipping over.

The Quick Hook-Up Kit includes:

- Filter
- Check valve
- Stainless steel clamps
- 5/8” hose with 3/4” inlet
- Outlet adaptors with garden hose thread

When ordering ask for:

- 14 GPM Sanitizing - Part #: HSPK58LB
- PAA - Part #: HSPK58-PAA

NOTE: Injector, DosaCart, and Quick Hook-Up Kit are sold separately.
