The Dosatron Diaphragm Medicator

Through Dosatron’s progressive engineering, the DM11F includes:

- Enhanced features, providing longer lasting parts
- The ability to work under the toughest conditions
- The highest quality diaphragm medicator on the market

The water-powered DM11F Diaphragm chemical dispenser and medicator automatically compensates for flow and pressure changes providing consistent, repeatable results for your animals. It is perfect for day-old chicks and also for weaners. The DM11F has a wide flow range from .02 GPM up to 11 GPM.

The Dosatron DM11F diaphragm has been engineered for:

- Medicating
- Sanitizing
- Chlorinating
- Vaccinating
- Water treatments
- Supplements

Includes: mounting bracket, suction tube, and weighted strainer. Please review the basic installation drawing for recommended accessories.

MAXIMUM TEMPERATURE: 104 °F

DM11F FEATURES AND BENEFITS

- **Low flow starting at 0.02 GPM** - (1.2 GPH) Treats day-old chicks and weaners
- **High flow up to 11 GPM** - Higher flow for growing animals and larger houses
- **Fewer parts** - Easy to maintain and field serviceable, no special tools needed
- **Larger capacity** - Less strain on motor parts for a longer life
- **No metal parts** - Standard injection parts are resistant to most chemicals and there is no need to change parts for different chemicals
- **Standard bypass** - You are able to run clear water at the turn of a switch
- **Easy maintenance** - Wear parts are easily accessible

**Customer Service**

At Dosatron, we stand behind our units. Our world-class customer service team is always ready to assist you with service and support, for as long as you own your Dosatron.

Not sure what unit fits your needs?
